NOTES ON THE EDUCATION OF THE DEAF.

A child born deaf, or becoming deaf in early infancy, has on entering school no knowledge of language. The only knowledge he has is purely sense knowledge; he has no knowledge of the significance of words—whether written, spelled on the fingers, or spoken. The hearing child learns to speak by imitating the sounds and words he hears from the people around him, and develops a knowledge of language from his earliest years. When he arrives at school age, he is in possession of an extensive knowledge of the English language, and has received the mental development which is brought about by the acquisition and use of language. The deaf child, because of his deafness, does not learn to speak, does not acquire any knowledge of language, and misses much of the mental development that should be going on from babyhood to the age at which school life begins. He remains in intellectual infancy until he is placed under instruction, and it is desirable that his education should be begun at as early an age as possible, while there is some definite relationship between his mental and physical growth. The greater the gap between these, the more difficult is the work of education, and the highest results are secured in the cases of children who enter school at an early age.

The acquisition of the English language is the basis of the education of the deaf. Instruction in the ordinary school subjects cannot be attempted until the pupil has sufficient language to enable the communication of the necessary ideas, and according to the degree of appreciation of language, which necessarily varies with the varying intelligence of children, is progress made in other subjects. The development of language in a congenitally deaf child has been likened to the acquisition of a foreign language by a hearing person. This, however, is not a suitable illustration. The hearing person has all his knowledge of his native language to assist him in the interpretation of the foreign; whereas the deaf child, cut off as he is by his deafness from all knowledge of the vernacular of his country, has no such assistance.

The aim of the teacher of the deaf in developing a knowledge of language in his pupils is to follow, as nearly as possible, the manner in which the little hearing child acquires his knowledge in the natural way. All our methods and systems are based on the laws governing the acquisition of language by normal children.

There are two main methods of imparting instruction to deaf children—the ORAL METHOD and the SILENT METHOD. In the former, Speech and Speech-Reading are employed, and in the latter the Manual Alphabet; Writing being common to both. The choice of method for individual children is decided from considerations of age, condition, and capability.

The ORAL METHOD seeks to give the child an intelligible speech, and the ability to read from the lips the language of everyday life. The sounds employed in our language are taught separately, in the order of increasing difficulty. As the progress of the child permits, these sounds are combined into words, of which he is taught the meaning, and the words into phrases and sentences, very simple in the early stages, but gradually and continuously expanding.

In the SILENT METHOD, the letters of the alphabet are taught on the fingers. Its aims are similar to those of the ORAL METHOD—the only difference being that Speech and Speech-Reading are not attempted, the Manual Alphabet taking their place as a means of communication and of imparting information.

Both methods abound with difficulties, which continue throughout the whole of the child's school career.

It will be gathered that the work of educating the deaf cannot be compared with that of normal children. No comparison can reasonably be made between the attainments of deaf and hearing children, but there is every prospect that if a deaf child of average intelligence be placed under efficient instruction at an early age, he will, at the end of his school career, be in possession of a satisfactory knowledge of his mother tongue, and have received such instruction in general scholastic subjects as will enable him to take his place in the outside world.

Education for the deaf is an imperative necessity, because—

1. It establishes a means of communication with other people by speech or finger-spelling, and writing; and removes the isolation of earlier years.
2. It develops in the deaf child a knowledge of his mother tongue, and provides him with materials for thought, and with the means of communicating it.
3. It enables him, to a greater or less degree, to avail himself of the opportunities afforded for self-culture by the literature of his country.
4. It develops in him principles of honour, candour and self-respect; and gives him a better and wider outlook on life.
5. It enables him to compete with his hearing fellows in industrial life, and to become a self-respecting and respected citizen; and in many cases prevents him becoming a useless burden on society.

The foregoing statement will give some idea of the magnitude of the work of the education of the deaf, and of the immense issues to the child and to society involved in the question. It will be readily understood that in order to accomplish the best that can be done, a deaf child should be placed under suitable instruction at the earliest possible age. Experience shows that the best and most effective means of educating deaf children is in such an Institution as New South Wales possesses in the Sydney Institution. Parents are naturally reluctant to send their children away from home at an early age; but having regard to the tremendous issues at stake, it is almost inconceivable that they should (as unfortunately some of them do) allow false conceptions of kindness and affection to stand in the way of their child's educational advancement.

9

FIFTY-SECOND ANNUAL REPORT OF THE New South Wales Institution for the Deaf and Dumb and the Blind,

FOR THE YEAR ENDED ON SEPTEMBER 30th, 1913.

The Directors beg to submit the following report respecting the affairs of the Institution for the past twelve months.

PUPILS.

The following tabulated statement shows the number of children who have been under instruction during the year:—

	Deaf & Dumb.		Blind.		Deaf and	Totals.	Grand	
	Boys.	Girls.	Boys.	Girls.	Blind.	Boys.	Girls.	Total.
On the Roll								
Sept. 30, 1912	78	41	17	6	1	95	48	143
Admit'd since	7	7	1			8	7	15
	85	48	18	6	1	103	55	158
Graduated, Discharged or Removed	8	7	2	2		10	9	19
On Roll now	77	41	16	4	1	93	46	139

The health of the pupils, on the whole, has been fairly good. There were a few cases of illness during the year, including an outbreak of diphtheria in a mild form in September, but happily none with serious consequences. Dr. P. Sydney Jones and Dr. E. Selwyn Harrison were unremitting in their attention to the pupils.

But the work of the Institution has been sadly interrupted through the epidemic of smallpox, which broke out in Sydney soon after the children had left the Institution for the Midwinter holidays. Fortunately no case occurred in the Institution. The school should have reopened on July 15th, but the holidays had to be extended to August 18th, and in the case of some of the pupils, to

a later date. No child was re-admitted until successfully vaccinated, and as there was considerable delay and difficulty in getting some of the country children done they came back at very irregular intervals. In a few cases the parents refused to have their children vaccinated, and in others they considered it safer to keep them at home than to return them to the Institution, consequently some have not yet returned and the classes have been much disorganized. The same reasons have also militated against the admission of new pupils, whose parents preferred to keep them at home rather than run any risk by sending them to Sydney.

With regard to the compulsory education of deaf and dumb and blind children, the Directors have to report, with very much regret, that nothing definite has yet been accomplished, although they have done all they could do to ensure the passing of an Act of Parliament with that object in view. In November last a paragraph appeared in the press stating that it was the intention of the Minister of Public Instruction to submit a Bill to Parliament to provide for the compulsory attendance of children at school. This was brought under the notice of the Board, who resolved to ask the Minister to include Deaf and Dumb and Blind children. An urgent request was therefore sent to the Minister (the Hon. A. C. Carmichael), who replied stating that the matter had already received his attention and that he was having the necessary clauses drafted with a view to their inclusion in the Bill in question. Unfortunately, before the Bill could be submitted, Parliament was prorogued, consequently after years of strenuous endeavor and urgent representations of the necessity for such an Act the matter is still in abeyance. The Directors, however, are still hopeful that the necessary measure will be enacted without much further loss of time.

One of the new pupils admitted during the year is a little French girl from the New Hebrides. Before she could be received a Certificate of Exemption from the operation of the Immigration Act had to be obtained. At the same time a permit for the child to return to the New Hebrides at any time was received from the French Resident Commissioner.

Our deaf-blind pupil, Alice Betteridge, continues to make very satisfactory progress under the skilful tuition of her teacher, Miss Reid, B.A. Further details in regard to this interesting child and the general work of the school will be found in the report of the Superintendent.

Dr. George E. Rennie made his second annual medical inspection of the pupils in November last. General physical improvement was noted, which he attributed to the systematic physical training introduced. In the cases of some of the children found last year to be suffering from heart trouble, improvement was reported.

At the invitation of the Board the Minister of Public Instruction kindly gave permission for Messrs. Senior Inspectors Beavis and Friend to visit the Institution and examine the pupils. The examination took place on the 29th and 30th September, and, notwithstanding the fact that many of the pupils were absent through sickness and other causes, the report of the Inspectors is very satisfactory. The full text of the report is appended hereto. It must be very gratifying to the friends of the pupils, to the Government and to the subscribers that the reports of the Inspectors from year to year show such excellent results.

FINANCIAL.

The income of the Institution during the past year on General Fund Account has been well maintained, and shows an increase on that of the previous year of £587 9s 1d; but there has been a much larger increase in the expenditure owing to extensive alterations, renovations and improvements in the buildings, and the cost of furniture for the new additions, consequently the year has terminated with a debit balance of £160 4s 1d.

The income for the year was	£7078	5	10
The expenditure, including a debit balance			

of £97 5s 3d from the previous year, was	7238	9	11
--	------	---	----

Leaving a debit balance of	£160	4	1
----------------------------------	------	---	---

The expenditure on the new buildings and fittings during the year, including the installation of the electric light, furniture, etc., was £1899 5s 7d. The total cost of the additions, etc., was £5499 5s 7d, of which amount £4954 5s 7d has been borrowed from the Perpetual Subscribers' Fund, and which the Directors are anxious to refund out of revenue as soon as possible.

The Directors make an earnest appeal to the public for increased subscriptions to enable them to wipe out this indebtedness, so that the business of the Institution may be carried on without any anxiety in regard to financial matters.

The undermentioned legacies and donations have been received and have been placed to the credit of the Perpetual Subscribers' Fund, viz., £3000 from the estate of the late Mrs. H. M. Neale, being balancee of a legacy of

£6000; £500 from the estate of the late Walter R. Hall; £226 (making a total of £356) from the estate of the late Miss M. A. Chater; £200 from the estate of the late John S. Dunlop, £100 from that of the late Mrs. H. A. McCathie; £49 from that of the late James Bartlett (making a total of £200 to date); and £50 from the Trustees of the "Walter and Eliza Hall" Trnst. being amount allocated to this Institution for the current year. A legacy of £25 was also received from the estate of the late L. C. Russell-Jones and was credited to the Building Fund.

Interest amounting to £117 15s 6d was also received from the estate of the late Mrs. H. M. Neale and placed to the credit of the General Fund Account.

The Directors respectfully and earnestly invite the attention of wealthy members of the community to the claims of this Institution when making their wills. No better outlet for surplus wealth could possibly be found than in devoting a portion to the needs of this Institution in furtherance of that beneficial work which has been so successfully carried on during the past 52 years.

Subscriptions amounting to £137 13s 3d have been collected for the Institution by friends in the country, in centres not visited by our travelling collector, and the warmest thanks of the Board have been conveyed to these friends for their kind and valuable assistance, which in some cases has been afforded for many years.

The Organ Fund Account has been closed by the expenditure of £126 14s in the purchase of new pianos, which were badly needed, and by the transfer of the small balance remaining, £4 1s 8d, to the General Fund Account.

BUILDINGS AND IMPROVEMENTS.

Mention was made in last year's report of a proposal to pull down the old dining hall and to erect in place thereof an assembly hall with modern class rooms on each side and with dormitories, officers' quarters, bathrooms, etc., above. Messrs. A. L. McCredie and Anderson, Hon. Architects, prepared plans for the proposed buildings and submitted an estimate of the cost, viz., £5200. The plans were approved, but owing to lack of available funds the work has had to be postponed for the present. In the meantime, as a temporary arrangement, the old dining hall has been divided and converted into three class-rooms, which were badly needed, and the upper balcony on the girls' side has been enclosed and is being used as a dormitory by the less robust of our girls, who thus have the advantage of open-air treatment. These alterations have enabled the Institution to provide for all

the children who have been admitted up to the present, but if the education of the Deaf and the Blind is made compulsory it will cause a considerable increase in the number of candidates for admission, for whom at present the Institution has very little accommodation. The proposed additional buildings must be erected in the near future or children will have to be turned away for want of room.

Other improvements carried out during the year are the installation of the electric light throughout the buildings at a cost of £186 10s, and the extension of the hot water service from the new kitchen to the bathrooms: also some much-needed repairs and renovations in various parts of the buildings.

With the object of securing the safety of the children in case of an outbreak of fire in the Institution additional exits have been provided from some of the dormitories, placing these rooms in that respect in a much more satisfactory condition. Fire drill is practised at intervals, the whole of the children being removed from the Institution in less than three minutes.

BOARD OF MANAGEMENT, LADIES' VISITING COMMITTEE AND HONORARY STAFF.

It is with much regret the Board have to announce the death, on the 9th December, 1912, of Mrs. W. H. Simpson, a member of the Ladies' Visiting Committee: on the 6th January last of Mr. Emanuel Saber, a life director of the Institution; and on the 21st September, of Mr. R. H. Ducker, J.P., a director. Mr. Saber was a member of the Board from 1876 to 1891, and Acting Treasurer for some months in 1882, during the absence of the then Hon. Treasurer, Mr. Henry Phillips, in both of which capacities he rendered much valuable service. Mrs. Simpson was a member of the Ladies' Committee for 24 years, during the whole of which time she took an active interest in the work of the Institution and the welfare of its inmates. Her kind-hearted loving sympathy for the pupils endeared her to all with whom she came in contact. Mr. Ducker joined the Board in 1906, and, until overtaken by the illness which terminated in his death, was a very regular attendant at the meetings of the Board, and thus gave material assistance in carrying on the business of the Institution. A letter of condolence in each case was sent to the bereaved friends, and the Board placed on record its appreciation of the services so kindly rendered.

The vacancy caused by the death of Mrs. Simpson was filled by the appointment of Mrs. A. B. Shand.

Mr. Robert Chadwick, a member of the Board, is absent in England on leave.

The Directors have much pleasure in expressing their appreciation of the valuable service rendered by, and the assistance received from, the Ladies' Visiting Committee in their oversight of the domestic arrangements and in many other directions. The Directors are under a deep debt of gratitude to these ladies for the efficient manner in which they have performed their onerous duties.

The members of the Honorary Staff, viz., Dr. P. Sydney Jones and Dr. E. Selwyn Harrison (hon. physicians); Dr. J. C. Halliday (hon. ophthalmic surgeon), Dr. John B. Graham (hon. oral surgeon), Dr. George E. Rennie (hon. consulting physician and medical inspector), Dr. Charles P. B. Clubbe (hon. consulting surgeon), Messrs. A. L. McCredie and Anderson (hon. architects), Mr. Percy J. Pratt (hon. solicitor), Messrs. A. G. Gabriel and Henry Walker (hon. dentists), Messrs. T. F. H. Mackenzie and Henry Pratt (hon. auditors), Mrs. H. Earlam (hon. teacher of needlework), and Miss Gladys McIntyre (hon. teacher of elocution to the Blind), have been most assiduous in the performance of their duties and have earned the warmest thanks of the Board for their valuable and gratuitous services. It would be almost inviolable to make any distinction in regard to the important nature of the services rendered by these honorary officers, who, one and all, have cheerfully and willingly given their time and attention to the duties of their various offices whenever occasion has required them to do so. It may be mentioned, however, that at the commencement of the smallpox epidemic Dr. Harrison kindly attended at the Institution and vaccinated nearly the whole of the staff and the pupils who were then in residence.

OFFICIAL STAFF.

The Institution lost the services of two of its junior teachers during the year: Miss Watson (daughter of our late Superintendent) resigned in December last to enter the nursing profession; and Mr. E. Goldsmith resigned in June and accepted a position as teacher in the West Australian Institution for the Deaf and the Blind.

The staff has been strengthened by the appointment of Miss J. M. Morison, an experienced teacher of the Deaf, from Great Britain; of Miss Banks, a junior teacher in the Blind school; and of Mr. F. S. Griffiths, as a junior teacher of the Deaf.

Miss Easterbrook was appointed needlewoman in place of Miss Alexander, resigned; and Miss Bawtry, who had

gained experience in the Manchester Institution, was appointed girls' supervisor and sewing maid.

In order to extend the system of manual training it was decided some months ago to establish a boot-repairing class for the deaf boys, and Mr. W. Roberts was appointed to the position of instructor. It is anticipated that in the course of a few months the boys will be able to do all the boot-repairing required by the Institution, and thus save the cost elsewhere, as well as making the boys proficient in an important industry, by which they may be able, later on, to earn a good living for themselves and those who may be dependent on them.

Miss Harrison, one of the teachers of the Deaf, has been receiving instruction at the Technical College in dress-making with a view to imparting a knowledge of this industry to the pupils.

Mr. Arthur Massey, visiting teacher of music, and Mr. J. A. Bennett, visiting art instructor, having ceased their connection with the Institution, the Directors desire to express their high appreciation of their long and valuable services.

GENERAL.

In response to an invitation from the Board, his Excellency the Governor (Sir Gerald Strickland, G.C.M.G.) very kindly accepted the office of Patron of the Institution.

Mr. F. H. Dangar, of London, whose thoughtful and generous consideration for the pupils has extended over many years, again very kindly provided a substantial treat of cake, fruit and sweets for the children prior to the breaking up of the school for the Christmas holidays. The thanks of the Board were duly conveyed to Mr. Dangar for his generous gift, which was much appreciated by the recipients.

At the suggestion and under the management of the Superintendent a very successful sports meeting for the pupils was held on October 15th, 1912, at the Sydney Grammar School Sports Ground, Rushcutter's Bay. In addition to the pupils and officers, members of the Board and Ladies' Committee, there was a large attendance of the children's friends and the general public. The various events were keenly contested and the meeting, the first of its kind in connection with the Institution, was a great success. Prizes for the various events were subsequently handed to the winners by Mrs. J. H. Goodlet. It is proposed to have these meetings annually, and there is no doubt the preparation for the various events will be of great physical benefit, as well as a pleasure, to the children. In connection with this matter the Board desire to express

their sincere thanks to the authorities of the Sydney Grammar School for their kindness in giving the use of the ground free of charge, and to all those who contributed the prizes, a list of which is published with the balance-sheet.

The greatest event of the year so far as the pupils are concerned, the annual public examination and distribution of prizes at the breaking up of the school for the Mid-summer holidays, took place at the Institution on Thursday, 19th December. A large audience assembled to witness the proceedings and much interest was manifested in the exhibition of the children's attainments and of the methods of imparting instruction to them. Mr. Aubrey Halloran, LL.B., a member of the Board, presided, and Mrs. John Fulton Rose, one of the Ladies' Visiting Committee, very kindly presented the prizes.

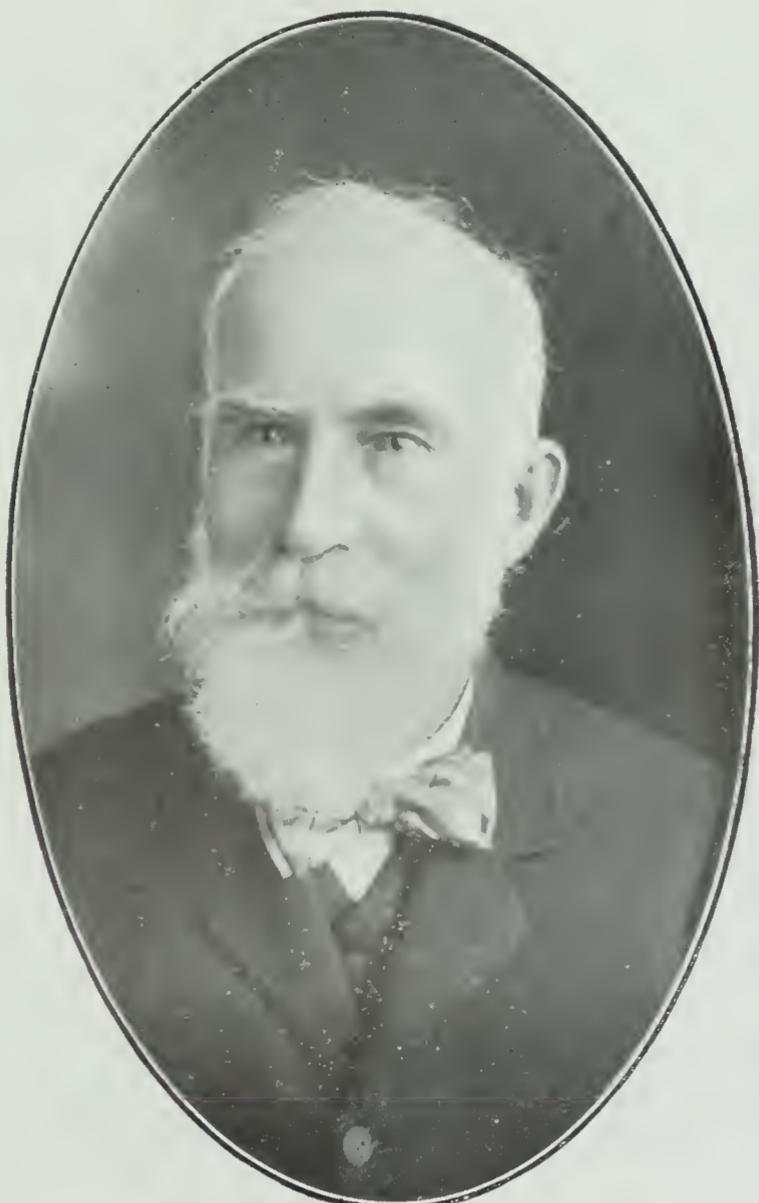

At the kindly invitation of his Excellency the Admiral (Sir George F. King-Hall, K.C.B., C.V.O.) the officers and pupils of the Institution paid a visit to Admiralty House on Wednesday, 17th September. After an inspection of the house and grounds, games were indulged in and afternoon tea served on the lawn. His Excellency delivered a short address, in which he stated that he would be leaving Sydney on the 18th October and would probably not see any of them again, but he gave them a loving farewell message.

INSTITUTE FOR THE ADULT DEAF.

This branch of the Institution's work, the Directors regret to say, has been a source of considerable anxiety to them during the past few months, most of the members having resigned for the purpose of forming an independent Society of their own without any intimation whatever to the Board, giving amongst their reasons—

1. That the present premises are most inconvenient for them, being too far away from the centre of the city.
2. That they desire premises of their own, to be used more as a Club at all hours during the day or night, under their own control and management, and to be entirely free from the interference of any other body.
3. That they wish to secure the services of a full-time missionary to look after their welfare; and they also added that in the event of their purchasing a billiard table and placing it in the present building it would be used during the day time by the teachers and boys of the parent Institution.

The present building has been erected by the Directors of this Institution at very great expense for the special benefit of ex-pupils and others who

FRED. PHILLIPS, ESQ.,
Hon. Treasurer.

ALICE BETTERIDGE,
Our Deaf-Blind Pupil.

have completed their educational course. It is of the most modern and up-to-date style, provided with plenty of light and ventilation, and suitable in every way for the requirements of the Adult Deaf of this State, and has ample accommodation. Under the circumstances your Directors are at a loss to understand what the Adult Deaf have to gain by their peculiar action. The policy adopted appears to be a most misguided and suicidal one, entailing as it does the cost of maintaining two separate Institutes where only one is necessary, and at considerably more than double the present expense.

The site is most convenient, adjoining the city; trams pass the door every minute or two. The Institute, for which not one shilling rent has been charged, has been under the management and control of the Committee of the Adult Deaf. The Directors have also paid the whole cost of teacher's salary, gas, cleaning and other expenses, etc., etc., from the start. And it is a matter for surprise as well as regret that, notwithstanding all that has been done to promote their welfare and happiness, and that they have no complaint against the Directors or anyone connected with the Institution, the Adult Deaf should have been so misguided as to take the step of severing their connection with the Institution.

CONCLUSION.

In conclusion the Directors desire to express their gratitude to Almighty God for the blessing and mercies of another year, for the success that has been achieved, and for the liberal support that has been accorded, which they trust will be continued and increased as the years go by. They also desire to express their sincere thanks to all those who have in any way assisted the Institution.

JOHN H. GOODLET, President.

WM. RIGG, Hon. Secretary.

Sydney, October 13th. 1913.

AUDITORS' CERTIFICATE.

Having examined the Books, Securities and Vouchers of the New South Wales Institution for the Deaf and Dumb and the Blind, we hereby certify that we have found everything correct, and the books kept in a thoroughly satisfactory manner.

T. F. H. MACKENZIE, F.C.P.A.

HENRY PRATT, F.C.P.A.

Sydney, October 9th. 1913.

SUPERINTENDENT'S ANNUAL REPORT.

13th October, 1913.

TO THE BOARD OF DIRECTORS.

Gentlemen.—I have pleasure in presenting my Third Annual Report.

The closure of the schools, caused by the outbreak of Small-pox in Sydney, and the consequent necessity for securing the vaccination of the pupils (who were on holiday when the outbreak was manifested), have militated against educational development, but in spite of these obstacles I am able to report considerable improvement in both schools, and it is regrettable that, through the objection of their parents to vaccination, certain children have lost several months' valuable education. In the Deaf School there is a continually increasing language appreciation and development, and, as this is the basis of all work for the deaf, I am confidently hopeful of excellent attainments. There has been steady improvement in Drawing, and results of an extremely satisfactory nature are being produced. There has also been a general advance in Manual Work. The system has been improved by the addition of further subjects in certain classes, and in this, as in Drawing, the teachers have done really good work.

In the Blind School, good work has been done during the year, and successful results achieved. The appointment of an additional teacher in this department has made possible further improvements in the organisation of the blind children's school work and out of school occupations. A further valuable result is that Miss Reid has been able to devote more personal teaching time to our deaf-blind child, Alice Betteridge, whose progress continues to be gratifying and remarkable. Her development in Language has proceeded steadily. Her range of Language has extended much, and her use of advanced forms and complex sentences is marked by the same accuracy and freedom that characterised her use of simple English. In all branches of her study, she has made great advance, and excels in Manual Work almost as greatly as in intellectual work. It would be almost impossible to speak in too glowing terms of Alice or of her progress; and Miss Reid, her teacher, to whose unwearying and skilful efforts the development of the child is so largely attributable, is deserving of the highest praise.

Physical training has received careful and systematic attention throughout the year. The exercises are thoroughly well performed, and have had distinctly beneficial results. In this connection our Children's Sports of October last are worthy of special mention. Nothing of the nature had previously been attempted, and it is gratifying to state that the effort was successful in every way. The children acquitted themselves admirably, and the whole proceedings passed off excellently. I would express my appreciation of the excellent work performed by the teachers in the preparation of the children.

The School Magazine has been continued, and I feel that it is serving a very useful purpose. Mr. Haylett, who has supervised the type-setting and printing of this little journal, is deserving of a special word of thanks for this voluntary work.

Meetings of the teaching staff have been held periodically throughout the year, and matters of professional and educational interest discussed.

An improvement in organisation has been effected by the appointment of Miss Maud Bawtry as Girls' Supervisor and Sewing Maid, and this appointment has also done something to relieve

pressure in certain departments of the domestic work of the Institution. Efforts have been made to secure a suitable man as Boys' Supervisor, but for the present without success.

It is a pleasure to again testify to the devotion of the teachers to their duties. I need not point out that these duties are of a much more arduous and comprehensive nature than are those of teachers in ordinary schools, and make greater demands on the people concerned. Both in and out of school, the teachers' work has been well and conscientiously performed, and with a considerable measure of success, of which the improved demeanour and attainments of the children bear evidence. With so much whole-hearted service on the part of the teaching staff, it is difficult to make individual mention, but the influence of Mr. Haylett and Mr. Love on the boys has been so excellent and helpful as to call for a special word of appreciation. The Senior Teachers—Miss Beaumont and Mr. Byrne in the Deaf School, and Miss Reid in the Blind—have rendered me every possible assistance, and are deserving of special commendation.

The deaf girls' cookery class, under Miss E. C. Reid, has been carried on with as much success as in former years.

The deaf girls' class in Fancy Needlework, of which Mrs. Earlam is the honorary teacher, and the blind children's Elocution class, voluntarily taught by Miss Gladys McIntyre, have been continued throughout the year with excellent results. Warm thanks are due to these ladies for their gratuitous services.

The domestic routine of the Institution has been carried on satisfactorily under the capable supervision of the Matron. Mrs. Clarke combines skill and efficiency in management with a thorough knowledge of child requirements from a health standpoint, and all her duties are performed in a manner that calls for warm praise.

In conclusion I would ask you to accept my sincere thanks for the continued consideration you have extended to me, and my appreciation of the sympathetic manner in which you, as the governing body of the Institution, have dealt with the many important and varied matters I have brought before you. Convinced as I am of your desire to secure all that is best for the blind and deaf children whose interests we serve, and of the earnest and hearty co-operation of the staff, I confidently anticipate considerable development in our work, and a constantly advancing standard of educational attainment.

I beg to remain, Gentlemen,

Yours faithfully,

HAROLD EARLAM,

Superintendent.

REPORT OF DEPARTMENT OF PUBLIC INSTRUCTION.

(Copy.)

**NEW SOUTH WALES INSTITUTION FOR THE DEAF AND
DUMB AND THE BLIND.**

Visited 29th and 30th September, 1913.

Inspection of the Institution this year has happened in circumstances which may be regarded as unfavourable. Teachers feel dissatisfied when from any cause the attendance of pupils at inspection is small.

At the outbreak of small-pox in Sydney, reports of the first cases were coincident with the Schools' Midwinter Vacation; and as the children were at their homes, it was thought desirable not to re-assemble them till the extent of the outbreak could be gauged and the welfare of the children safeguarded. Thus the school remained closed during July and up to the 18th August. Even at the end of August a few children had not returned, and in addition there were troubles arising from vaccinations. Quite recently a new danger has appeared in the form of an attack of diphtheria, fortunately a mild one, yet sufficient to require the segregation from the School of about 50 pupils, patients and contacts. In this connection the advantages of the new hospital and dormitory accommodation are being made apparent. The Hon. Physicians attend daily and direct what action is required in the interests of the sick and the well. While the disorganisation of the work of instruction is matter for regret, it is not without its favourable aspect; for the solicitude and attention of the management must be a source of satisfaction to the parents who have entrusted their children to the care of the Institution.

Last year reference was made to building improvements then in progress, which would bring the Institution up-to-date. Unfortunately portions of the scheme have been temporarily abandoned, but enough has been done to permit of better organisation of the Institution throughout. A substantial brick addition to the northern wing has given a new hospital, also a new kitchen with conveniences in the basement. The Assembly Hall has become a commodious dining room. Dormitories have been greatly improved and properly separated. The old dining room and former Deaf School have been divided with glazed partitions to form suitable class-rooms, in some of which modern furniture has been installed. In every part of the Institution the material arrangements have been improved.

A portion of the garden has been allotted to the Blind boys as a special playground; the remainder is worked by the children as a field of nature study, having very properly ceased to be thought of as the vegetable garden of the Institution. Not enough has yet been attempted in flower culture.

In the class-rooms used by the deaf marked change has occurred. There is better separation of the classes. The rooms are brighter in every way, and suitable pictures and illustrations, including specimens of the pupils' handiwork, find places on the walls. The School Magazine referred to in last year's report continues to be printed and published on the premises; it should ultimately become a useful adjunct, though at present the pupils have not enough language knowledge to use it freely. In the rooms for the blind there are few new teaching aids, but the piano has been put in good order, and instead of being, as formerly, a means of teach-

ing one or two children instrumental music, it is in daily use as a cheering influence in the pupils' work and in their games.

It is necessary again to point out as a matter of public importance that the educational welfare of these children is at the option of the parents, and that the School is handicapped in its work owing to lateness of enrolments and shortness of the periods during which the children come under instruction. Recently several pupils younger than usual have been admitted; these are the hope of the School. With the older pupils only a compromise with circumstances is attempted; any reasonable completeness in their education is not possible. The Institution should have a kindergarten, but under present conditions a kindergarten would be useless. There are not in the Institution the children to whom kindergarten in its earlier forms would be applicable. Possibly a kindergarten would establish some community of feeling and interests between the deaf and the blind, who at present have nothing in common. Attendance from six years of age—earlier if possible—should be compulsory.

Hereunder is a summary of the class organisation:—

Deaf School.

Enrolled: 72 boys, 45 girls, 117 total; 12 classes, 11 teachers.

Present: 46 boys, 20 girls, 66 total

Blind School.

Enrolled: 18 boys, *4 girls, 22 total; 5 classes, 4 teachers.

Present: 15 boys, 3 girls, 18 total

* Including the deaf-blind pupil, Alice Betteridge, who, being a diphtheria contact, was not present at the inspection.

Four special teachers give instruction respectively in wood-work, boot-repairing, fancy needlework, and cookery. Boot-repairing is a new manual activity directed by Mr. Wallace Roberts. Drawing and Music, formerly taught by special teachers, are now undertaken by the regular staff.

Programme of work and time-tables show larger attempts in the instruction, and have been planned with judgment, grounded on experience. Every afternoon is devoted to some form of manual or art occupation.

Government.

The physical welfare of the children receives unremitting attention. Every pupil is medically examined at least once a year, and records of tests are kept for purposes of comparison, and for the guidance of the management. Children with weak hearts—and they are relatively numerous—are specially watched. Eyes, ears, and teeth are observed and treated by specialists, while the honorary physicians have care of the general health. The government lacks no element of real kindness and yet is strong in securing order and the pupils' moral welfare. The tone of the school is distinctly cheerful, and cheerfulness grows as the mental activities and games of the pupils are enlarged. To the daily drills, and physical training have been added organised games into which the pupils enter with much zest. At the end of last year so much had been accomplished in these directions that the School was able to hold a very successful "Sports Day." The most marked advance is noticed in the confident marching and improved gait of the blind.

Non-sectarian moral instruction is part of the regular work of the teaching staff. Language is necessarily the only channel of moral instruction. For the deaf a specially prepared code based on English experience is used.

The School for the Deaf.

Language, of course, is the crux of the position. Two groups—the "silent" classes, use only the fingers and ordinary writing, either on the blackboard or in books; these are making good progress, of which their improved intelligence is proof. With the rest, effort at oral expression has been steadily pursued, but it is not easy for the casual observer to measure the success; one thing is certain, that the younger children make the better attempts. Judged on tests of intelligence, interest, and written expression, there can be no question of the general language improvement. Further, within the past two years, what is virtually a new language has been added—the language of pictorial representation. Pictures are presented, drawings on the blackboard or on paper with colored chalks are made by teachers and pupils, and even dramatisation is attempted. It is still a matter of remark by inspectors how good the writing is, how correct the spelling. The book-work has been much extended and is creditable. To evolve ideas, or at least to get them expressed, is the great difficulty; bearing this in mind the following, copied from one of the books (a child three years at school), is not a bad sample:—

"30th September, 1913.

"To-day is Tuesday, 30th September. This is the last day of September. To-morrow will be the 1st of October. It is raining this morning. Mr. Beavis and Mr. Friend are coming to see us this morning. Some of us are not going home on 3rd October. We all had drill yesterday."

Work in arithmetic shows improvement, particularly the mental work. Language is again the difficulty; expressions readily understood by those who can speak may convey to the speechless meanings entirely different. Vocabulary being so limited, shades of meaning and different uses of the same word, occasion perplexity. More measuring practice is recommended.

Something has been done to impart an elementary knowledge of civics, history and geography; but accomplishment has not been great; once more the language difficulty is the obstacle. Civics instruction would perhaps be best confined to local conditions and happenings, and to simple facts in Australian history. Sand-tray work, plan-drawing (local) and mapping should be effective means of teaching such geographical ideas as can be readily grasped at present.

Drawing and Art Work.—This may be regarded as an extension of the pictorial representation which is playing such an important part in the language teaching. But accuracy and taste are additional aims. The forms practised are drawing with coloured chalks and with pencils from the object, plan-drawing for wood-work, brushwork (flowers) and clay-modelling. Here the deaf child is practically on a level with the normal child. Very good work is shown at all stages; even the "silent" classes do well.

The School for the Blind.

The courses of instruction comprise English (including English Literature), Manual Training, History, Geography, Scripture, Civics and Morals, Physical Training, Organised Games and Music. For the majority of those subjects the school is divided into five sections. Subjoined is a brief synopsis of the year's course in the highest class:—

English.—Reading: Royal Crown Reader VI., and books from the School Library. Authors: The Merchant of Venice, Julius Caesar, Balder Dead, Life of Scott (Lockhart), Selections from Australian Poets, and several biographies of great writers.

History.—The Expansion of the British Empire, the following being some of the studies: The Elizabethan Age, Settlements in the West Indies, the French and English in Canada, The East India Company, The Loss of the American Colonies, The Indian Mutiny, The English in South Africa and in Egypt, Australian History from 1851.

Geography.—Commercial Geography of the British Empire, The United States, Germany, France, The Earth's Movements, the Sun, the Seasons, the Atmosphere, etc.

Scripture.—The Acts of the Apostles.

Arithmetic.—Vulgar and Decimal Fractions, Proportion, Work relating to matters of everyday business importance, as specified in another part of this report, the mensuration of easy surfaces and solids.

Manual Training.—Boys: Macrame work, cane work, viz., the construction of baskets with round, oval or square bases, and chair-caning. Girls: Plain sewing, knitting and cane work.

Physical Culture.—The English Board of Education's syllabus; organised games.

Considering that the average period in school of these children is $6\frac{3}{4}$ years, the headway which they have made is very marked. As it is realised that English in its various branches, Manual Training, and History are all important considerations in the case of the blind, great stress is laid on these subjects. In all classes the pupils read fluently from the Braille type, and show an intelligent conception of the meaning and application of words met with in the lessons, as well as the content of the lessons themselves. As a rule children who have been about one year under instruction can read ordinary monosyllables, whilst those of two or three years can successfully undertake easy prose and poetry containing words of two or three syllables; and so on till the highest class is reached. In this class the pupils show to considerable advantage in the study of English authors such as engage the attention of certain senior classes in Public Primary Schools; they can quote intelligently Shakespeare, Longfellow, Tennyson, Kendall and others. Items of interest and importance appearing in the daily newspapers, etc., form subjects of discussion and enter into the school processes in a number of ways. As an instance of the ability of the senior class to spell correctly it may be mentioned that a difficult dictation test from the "Sydney Morning Herald," issued upon inspection day, revealed an average of only one error per pupil. Briefly stated, the work accomplished in the branches of English throughout the School is worthy of unstinted praise. The library of the Institution comprises about 1000 volumes of the Braille, and includes the Bible, and some of the works of Shakespeare, Scott, Dickens, and other standard authors. The scheme of manual training is referred to in another portion of this report.

A suitable correlation is set up, as far as practicable, between history and geography. Only the commercial and industrial sides of the latter subject are emphasised. The teaching of the physical side is somewhat restricted, because it presents difficulties; relief maps only will serve and these must necessarily be of small dimensions. The historical accounts written in Braille type were generally correct in content and expressed in clear grammatical English.

The arithmetical work is mainly mental, and the pupils, from lowest to highest class, are quick and accurate in their calculations. Some of them show great expertness. The slate obviously admits of only slow work. In the highest class necessary principles, such as underlie vulgar and decimal fractions, proportion, etc., are taught, and matters of everyday business importance (percentages, profit and loss, rates, taxes, insurance, incomes, discount, banking, etc.) are well emphasised, especially as mental operations.

Poetry (which includes a good proportion of Australian verse) and Scripture are favourite subjects. More attention than formerly is given to vocal music and less to instrumental. The pupils render simple melodies in a pleasing manner; ten are learning the piano. In this connection room games, in which the piano plays a part, have been introduced; a game of "musical chairs" during the inspection was a delight to witness.

The extreme limitation of avenues of employment for the blind renders the future of these children a matter of special concern to the management. It is satisfactory to know that the pupils have the ambition to earn their living, and that the older ones turn their thoughts to the Sydney Industrial Blind Institution.

Manual Training.

A further extension has been made during the year. The schemes are comprehensive, accurately linked up, and in harmony with other branches of school study wherever possible, the connection with mathematics being well marked, and with language particularly so. The training operates as an educative force all through and its industrial significance is equally well recognised. Thus, in the latter connection, the later stages of the occupations for girls represent domestic training besides appropriate recreative and wage-earning handicraft; and for boys the construction of articles or implements of commercial value. The woodwork for boys is carried out on a larger scale than heretofore, and a boot-repairing class has been formed. Emphasis is placed upon the necessity for accurately drawn plans for all things made of cardboard or wood, to which circumstance the great merit of the finished articles is largely attributable. The three upper classes of boys (there are seven sections for manual training) are engaged in woodwork, i.e., in making models of numerous articles, and later on, the articles themselves. A comprehensive collection of excellent carpentry and joinery presented for inspection is plainly the work of a very expert lot of lads, who will leave the Institution with a valuable equipment at their disposal. The girls are alike fortunate in this respect.

The manual work of both schools is highly commendable.

Following is a brief summary of the schemes:—

The Deaf: Kindergarten occupations, paper mat weaving and plaiting, clay-modelling, paper-folding, cutting and design, cardboard cutting; (for boys only) cardboard modelling, light woodwork, carpentry, joinery, and boot-repairing; (for girls only) sewing, knitting, crocheting, fancy needle-work, millinery, dressmaking, cookery and laundry work.

The Blind: Rafia weaving, winding and plaiting, wool-mat making, card sewing; (for boys only) macrame, cane work, basket-making and chair caning; (for girls only) plain sewing, knitting and cane work.

Cookery instruction is given regularly every Saturday morning by a special teacher, and incidentally the girls get some practice in carrying out the domestic arrangements of the Institution.

Very good needlework is done, and with it is taught the associated language. All branches of plain sewing are practised, leading up to use of the sewing machine and the making of garments. In

addition, the older deaf girls get instruction from Mrs. Earlam in fancy needlework, which affords special opportunities for the cultivation of taste in design and colour; some of this work is excellent. One specimen claims separate mention, a neatly designed tea-cosy, the work of the sensitive fingers of the deaf-blind girl, Alice Betteridge.

Staff and General Management.

During the year the teaching staff has been strengthened by the addition of another member, and by the inclusion of teachers who have had experience in the Motherland. Increases in the salaries paid have afforded some recognition, though not full recognition, of the arduous nature of the duties rendered—duties which demand more than ordinary patience, sympathy, and devotion. The teachers certainly deserve to be commended. So also do those other servants of the Institution who attend so carefully to the domestic needs of the children, and without whose co-operation a heavy discount in achievement would have to be made. The Superintendent is a student of his problem, indefatigable in pursuit of his aims, fertile in ideas, and ever ready to profit by the experience of teachers of normal children. The measure of success attained, though considerable, does not satisfy him; and this is perhaps the best recommendation of the Institution to the confidence of the public.

(Signed)

W. BEAVIS,

C. J. W. FRIEND,

Senior Inspectors.

Sydney, 8th October, 1913.

**REPORT OF PROCEEDINGS AT THE FIFTY-SECOND ANNUAL
GENERAL MEETING.**

Held at the Institute for the Adult Deaf on Tuesday Afternoon, the
28th October, 1913.

The President (Col. J. H. Goodlet) presided over a representative gathering, which included, amongst others, the Vice-Presidents, Messrs. J. R. Love and W. H. Simpson; Hon. Treasurer, F. Phillips, Esq.; Hon. Secretary, W. Rigg, Esq.; Sir Philip Sydney Jones, Dr. Storie Dixson and Mrs. Dixson, Mrs. Cosh, Rev. P. Preswell, and Messrs. A. Halloran, R. Vicars and John Wade.

The Secretary having read the notice convening the meeting, the President said:—

Ladies and Gentlemen.—We are met to-day under peculiar circumstances. Usually we have a large meeting, and a month ago we expected to have the same kind of thing to-day, with the State Governor in the chair, but, unfortunately, an outbreak of diphtheria among the children has caused a change in the arrangements, and we are now contenting ourselves by holding a merely formal business-meeting, as required by the Act of Parliament. Under the circumstances, I beg to move:—

“That the Annual Report and Balance-sheet, which have been distributed, and which you have in your hands, be taken as read, and that the same be adopted.”

Sir Philip Sydney Jones, in seconding the resolution, said:—

Mr. Chairman, Ladies and Gentlemen.—I have very great pleasure in seconding the motion for the adoption of the Report and Balance-sheet. I do not know that there is much to say, except, as the President has already told us, of the misfortunes which have befallen the Institution during the last twelve months. In the first place the outbreak of small-pox in the city rendered it necessary to keep the children away from school for some time, and at any rate to prolong their holidays, and later the epidemic of diphtheria which has already been referred to.

The small-pox should have been preventible if only our present Government and previous Governments had done their duty—(hear hear)—by introducing a Bill and passing an Act rendering vaccination compulsory. If that had been done we should not have been placed in the unpleasant position of having to keep our children away from school, for a comparatively long time.

The work done in the Institution, as you will learn from the Report, has been of a very satisfactory character, and I do not know that I need draw your attention to any particular item, but on page 4 you will notice that, in the reconstruction and additions to the buildings certain improvements have been effected of a very important sanitary and hygienic character. Speaking of the buildings you will find in the Report these words:—

“In the meantime, as a temporary arrangement, the old dining hall has been divided and converted into three class-rooms, which were badly needed, and the upper balcony on the girls' side has been enclosed and is being used as a dormitory by the less robust of our girls, who thus have the advantage of open-air treatment.”

I know you will think I have got on my own particular fad, but the public now recognise the advantage of the open-air treatment, not merely for those suffering from disease, but for all in delicate health. On page 5 you will notice that “Fire drill is practised at intervals, the whole of the children being removed from the

Institution in less than three minutes.' I think we owe the introduction of this Fire Drill to the new Superintendent. Another thing we have done is to establish a boot-repairing class, which is a new departure, and as the Report says, it is anticipated that, in the course of a few months, the boys will be able to do all the boot-repairing required for the Institution and thus save the cost of outside repairs, as well as making them proficient in an industry by which they will be able, later on, to earn a good living for themselves, and those dependent on them.

I do not know whether it is proper to refer here to the question of the Adult Deaf, but I must confess that I feel tempted to say a word about it. The matter has appeared in the public press, and it is, therefore, open to discussion. An attempt has been made in Sydney to introduce another Adult Deaf Institution, and statements have appeared in circulars issued by that new society which are contrary to fact—to put it in the mildest way. Many of the things desired by this new society have already been carried out by our own Institution, and I am sure that the Directors will be quite willing to make advances in other directions if it is found to be at all practicable, and to the advantage of the Adult Deaf.

I shall not prolong my speech further, and I have very great pleasure in seconding the resolution.

The resolution adopting the Report and Accounts was carried unanimously.

Mr. F. Phillips (Hon. Treasurer) moved the following resolution:—

"That the thanks of this meeting are hereby given to the Government and Parliament for the annual donation of £450 in aid of the funds of the Institution,"—Which was seconded by Mr. W. Rigg, and carried.

The Rev. P. Preswell: I have much pleasure in moving—"That the following gentlemen be members of the Board of Directors for the ensuing year:—President, John H. Goodlet, Esq., J.P.; Vice-Presidents, James R. Love, Esq., and W. H. Simpson, Esq., J.P.; Hon. Treasurer, Fred Phillips, Esq.; Hon. Secretary, William Rigg, Esq., J.P.; Directors (to fill vacancies), Robert Chadwick, Esq., J.P.; Dr. T. Storie Dixson, and John Wade, Esq., J.P.; these, together with Aubrey Halloran, Esq., LL.B., Thomas S. Holt, Esq., Sir Phillip Sydney Jones, F. R. Renniss, Esq., John F. Rose, Esq., Robert Vicars, Esq., William Winn, Esq., constitute the full Board of Directors for the ensuing year, and that the following do constitute the Medical Staff:—Hon. Consulting Physician and Hon. Medical Inspector, George E. Rennie, Esq., M.D., F.R.C.P.; Hon. Consulting Surgeon, Charles P. B. Clubbe, Esq., M.R.C.S., L.R.C.P.; Hon. Ophthalmic Surgeon, J. C. Halliday, Esq., M.B., Ch.M., F.R.C.S.; Hon. Aural Surgeon, John B. Graham, Esq., M.D., M.Ch., Hon. Physicians, P. Sydney Jones, Esq., M.B., Ch.M., and E. Selwyn Harrison, Esq., M.B., Ch.M.; Hon. Dentists, A. G. Gabriel, Esq., and Henry E. Walker, Esq.

These gentlemen have been, and are doing excellent work. I have had the pleasure of hearing Sir Phillip Sydney Jones speaking on his favorite subject "The Open-Air Treatment," and I may say personally that I have received much benefit from it myself. The other gentlemen I am sure will bring their ability and knowledge to bear in the interests of all concerned.

Mr. R. Vicars, in seconding the resolution, said: I think we cannot adequately express our thanks to the gentlemen who have composed our Board of Directors, and Honorary Staff for their services in the past. It has been a serious and heavy task and we appreciate to the full the value of their indefatigable efforts on behalf of the Institution. I have much pleasure in seconding the

nomination of these gentlemen whose names have been read out.
The resolution was carried.

Mr. W. H. Simpson: I wish to propose a vote of thanks to the Honorary Staff for their services during the past year, which have been given gratuitously, and I need scarcely add, are fully appreciated.

Mr. F. Phillips, in seconding the vote of thanks, remarked that he felt sure they all owed a debt of gratitude, and were under a heavy obligation to the members of the Honorary Staff for the time and attention which they had given to the affairs of the Institution.

The vote of thanks was carried by acclamation.

Mr. John Wade moved a vote of thanks to the Directors and Officers of the Institution for their services during the year, who, he added, thoroughly deserved the approbation of the subscribers for the efficient manner in which they had carried out their duties. There had been some trouble about the hall in which the present meeting was being held. They had spent their money in making provision for the Adult Deaf, who were now seeking accommodation elsewhere. He thought that everyone present was absolutely satisfied that the Directors had made all reasonable provision for them.

The Rev. P. Preswell seconded the motion, which was carried by acclamation.

The President briefly responded, and expressed the hope that the next Annual Meeting would be held under more favorable auspices, and presided over by his Excellency the State Governor, who would have been present with them to-day but for the unfortunate circumstances to which he had previously alluded.

Mr. Rigg read an apology from his Excellency's Private Secretary (Major-General Finn) expressing the regret of his Excellency at being prevented from attending on account of the outbreak of the epidemic of diphtheria. Apologies were also received from Dr. G. E. Reunie, Mr. Percy J. Pratt and Miss Gladys McIntyre, who were unable to be present owing to various causes.

Mr. A. Halloran, proposing a vote of thanks to the Chairman for presiding, said:—

I think it is usual to propose a vote of thanks at such gatherings to the Chairman. I can only say, and I believe I echo the sentiments of every member of the Board, as well as those who have come into contact with our charitable and excellent Chairman, that he has done his work nobly and well, and only those who actively support our Institution are competent to judge the value of his services.

We are proud of this Institution, and qualified authorities, such as School Inspectors and visitors from other parts of the world, speak in the highest terms of the standard of education obtaining in the schools. The progress has been most satisfactory. I say, without fear of contradiction, that there are no boys or girls who leave this Institution, if they are sent at the proper age, who need ever become a charge on the charities of the State, as they are fully qualified to earn their own living at regular wages in whatever occupation they may adopt. I am sure that, under the kindly guidance of Colonel Goodlet, the Institution has prospered and he has been a splendid President and an excellent Chairman.

The motion was carried by acclamation.

Colonel Goodlet, in responding, said that the Institution was undoubtedly a credit to the State. He extended a cordial invitation to those present to adjourn to the other building and partake of the refreshments provided by the Committee.

The proceedings then terminated.

COLLECTIONS BY FRIENDS.

The following is a résumé of Subscriptions collected during the year in the Country Districts, full details of which are given on other pages. The warmest thanks of the Board have been awarded to the ladies and gentlemen named for their generous and valuable assistance:—

	£ s d
Benson, Mrs. Alex., Richmond	3 10 1
Betteridge, Mrs. G. H., Oakhampton	1 14 6
Cobb, Mrs. G., Richmond	2 9 0

8 Blouses	12 Dish Cloths
4 Tray Cloths	6 White Screens
1 Chair Cover	24 Feeders
5 Cushion Covers	3 Skirts
2 Cosy Covers	

INFORMATION AND DIRECTIONS RELATIVE TO THE ADMISSION OF CHILDREN TO THE INSTITUTION.

1. Applications must be in writing, addressed to the Secretary, sent before the child is brought to the Institution, and should contain as full information as possible. The necessary forms can be obtained of the Hon. Secretary.
2. Pupils are admissible from any part of the State of New South Wales, and, under certain conditions, from other States.
3. No child deficient in intellect, subject to fits, or unable to wash and dress itself, can be considered a fit subject for admission; and no child, whose conduct or habits are deemed by the officers to be objectionable, will be allowed to remain in the Institution.
4. No child shall be admitted of an age younger than five years, nor older than twelve years, unless under special circumstances, to be decided by the Board.
5. No order will be given by the Secretary for a child's admission until the medical certificate has been obtained, and it must be understood that no children are eligible for admission until every means have been tried for restoring their sight or hearing, as the case may be.
6. Children, on entering the Institution, are required to have two complete suits of clothing for school or week-day wear, to be of dark colour, and a better suit for Sunday, and to be provided with clothing (see list) by their parents and friends during their residence. Each child must be provided with a box or trunk, in which to keep clothing when clean. If £5 be remitted, the Board will purchase an outfit on admission.
7. Any amounts remitted to the Secretary for the purchase of clothing will be expended under the direction of the Board of Directors.
8. School fees vary according to the circumstances of the parents; the highest fee is £40 a year. If the parents are not able to pay that amount, a smaller fee will be accepted.
9. In the case of children whose parents are unable to pay any fees, a certificate of their inability to pay must be obtained from known individuals.
10. Fees are payable in advance, and date from the time of admission.
11. Children cannot be permitted to leave the Institution unless with the direct sanction and authority of the Board of Directors.
12. In addition to the ordinary scholastic subjects, every child in the Institution receives some form of manual training, further particulars of which are given on the previous page.
13. The vacations are 6 weeks at Christmas and 1 week at midwinter; and it is essential that pupils should return to the Institution on the day fixed to commence duties after each vacation, "and with their clothing clean and in proper order." (See list.)
14. Pupils are expected to remain in the Institution until they attain the age of 16 years, and except under very special circumstances, no child will be allowed to remain after attaining this age. The attention of parents is specially drawn to this in the hope that they will realise the necessity for sending their children to school at an early age. Failure to do this means depriving the children of at least a portion of their education.
15. Except under special circumstances children will only be admitted at two periods of the year, viz., in January and July.
16. It is requested that all communications be addressed to

WILLIAM RIGG, Hon. Secretary.
City Road, Darlington, Sydney.

SPECIAL INFORMATION

"The object of this Institution is the education and maintenance and, as far as practicable, the advancement in life of deaf and dumb and blind children."

The Institution is open to Subscribers and other Visitors on Tuesdays and Fridays, from 2 to 4 p.m., and at other times on special order from the Honorary Secretary or a Director.

The Parents and Friends of children are admitted once a fortnight, on Thursdays, between the hours of 3 and 5 p.m.

The children are permitted to leave the Institution to visit their friends once a month, on special written application being made to the Honorary Secretary.

When a case of serious or infectious illness occurs while a pupil is at home, it must be reported to the Hon. Secretary, and the child must not be returned to school until all danger of infection has passed, and a medical certificate to that effect produced.

Forms and all particulars for the admission of pupils can be obtained of the Honorary Secretary.

Subscriptions and donations will be thankfully received and acknowledged by the Treasurer, the Secretary, or at the Institution.

The Meetings of the Board of Directors are held on the Second Monday in each month, at 3 o'clock p.m. The Ladies' Visiting Committee meet at the Institution on the last Friday in each month, at 3 o'clock.

The cost of passages to and from the Institution must be paid by the friends of the pupils, the Board having no fund for this purpose.

All communications to be addressed to Mr. William Rigg, Honorary Secretary, at the Institution, City Road, Darlington, Sydney.

Money orders should be made payable to the Secretary or Treasurer, at the General Post Office, Sydney.

It is highly necessary that the Parents or Friends of children should notify the Secretary of any change of residence, so that, in case of illness, or other cause, immediate communication may be made.

The Public, Subscribers, and friends of the Institution are earnestly entreated to notify the Secretary of the existence in their districts of any Deaf and Dumb or Blind Children, not under instruction, it having been a source of great regret to the Board to find that several children have passed the age of admission, simply from their not having come under the notice of some kind friends who would take the necessary steps to enable them to be brought within the advantages of the Institution.

CHILDREN'S SPORTS.—DEAF BOYS HURDLE-RACING.

CHILDREN'S SPORTS—FINISH OF GIRLS' RELAY RACE.

No.

MEDICAL CERTIFICATE.

I certify that I have this day examined
and have found in good bodily health, and free from
cutaneous and contagious disorders. I consider a fit
subject for admission to the Institution. Date

..... Honorary Medical Officer.

HINTS TO PARENTS OF BLIND CHILDREN.

Remember that your child is just an ordinary child—deprived of sight—and treat him accordingly. Teach him to walk as soon as you would if he had his sight, and train him to use his limbs. He is dependent on the sense of touch (feeling) for much of the knowledge that is received by other children through the eye; and from the earliest possible time should be taught to observe shapes, sizes, weights, etc., by feeling things, and to find his way about the home and surroundings.

Do not make the mistake of imagining that because your child is blind it is necessary or kind to do almost everything for him. It is quite unnecessary, and, bearing in mind the fact that the more intelligent occupation the child has, and the more he discovers that he can do for himself, the less will he feel the deprivation of sight, it is positively unkind to bring him up in a helpless manner. Let him learn to wash and dress himself, and to attend to his other personal requirements, and to be neat and tidy. Teach him to feed himself, and be as particular over his table behaviour as you would be with a sighted child.

Teach him to walk correctly and carry himself well. Be very careful to check at the very outset any little objectionable mannerism that may show itself. Some blind children have a tendency to facial grimace, screwing the fingers into the eyes, rocking the body backward and forward, or from side to side, and if these practices are not stopped on their appearance they may develop into habits that will require years to eradicate.

Teach your child all the little nursery rhymes, fairy tales and songs that go to make childhood happy, and always endeavour that he may hear only such things as you would like him to remember.

Do not let him feel that his blindness makes him different to other children; but help him to realise that he is just the same as they, and "as good as anybody else." Let him help in all the little domestic operations in which children assist their parents.

Do not discuss his blindness in his presence—and show your sympathy for him not by bewailing the fact that he is blind, but by helping him, in ways suggested above, and in other ways that will suggest themselves to any intelligent parent, to overcome the disabilities of blindness to the highest possible degree. Do everything necessary to secure his happiness—but remember that the surest way of making him miserable and unhappy is to "spoil" him by placing him outside any form of discipline.

As soon as he is old enough—at 5 years of age or thereabouts—send him to school. There he will be surrounded by people whose lives are devoted to the education and care of children such as he; and it is only there that he will be able to secure the education which will enable him to take his place in the world, and which will supply him with the knowledge and mental development necessary to his personal happiness and advancement.

Do not take your child for examination or treatment to any but a duly qualified medical man. Secure for him the best medical advice obtainable, but on no account go to any "doctor" who has no medical degree. There is grave risk of serious damage resulting from the interference of any unqualified person with such a delicate organ as the eye.

If you act on the lines suggested here, you will be doing much for your child. He will be brighter and happier at home, and when he comes to school he will be in a better position to benefit by the instruction given, and his educational advancement will be more rapid.

Names of Pupils in the Institution during the Year ended 30th September, 1913.

DEAF AND DUMB CHILDREN.

No.	Name.	Age on Admission.	Religion.	Where received from.	Date of Admission.	Date of Leaving.	Other Children in family.	Remarks.

FORM OF BEQUEST.

TO THE

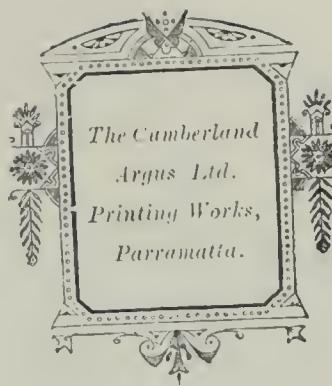

NEW SOUTH WALES INSTITUTION FOR THE DEAF AND DUMB AND THE BLIND.

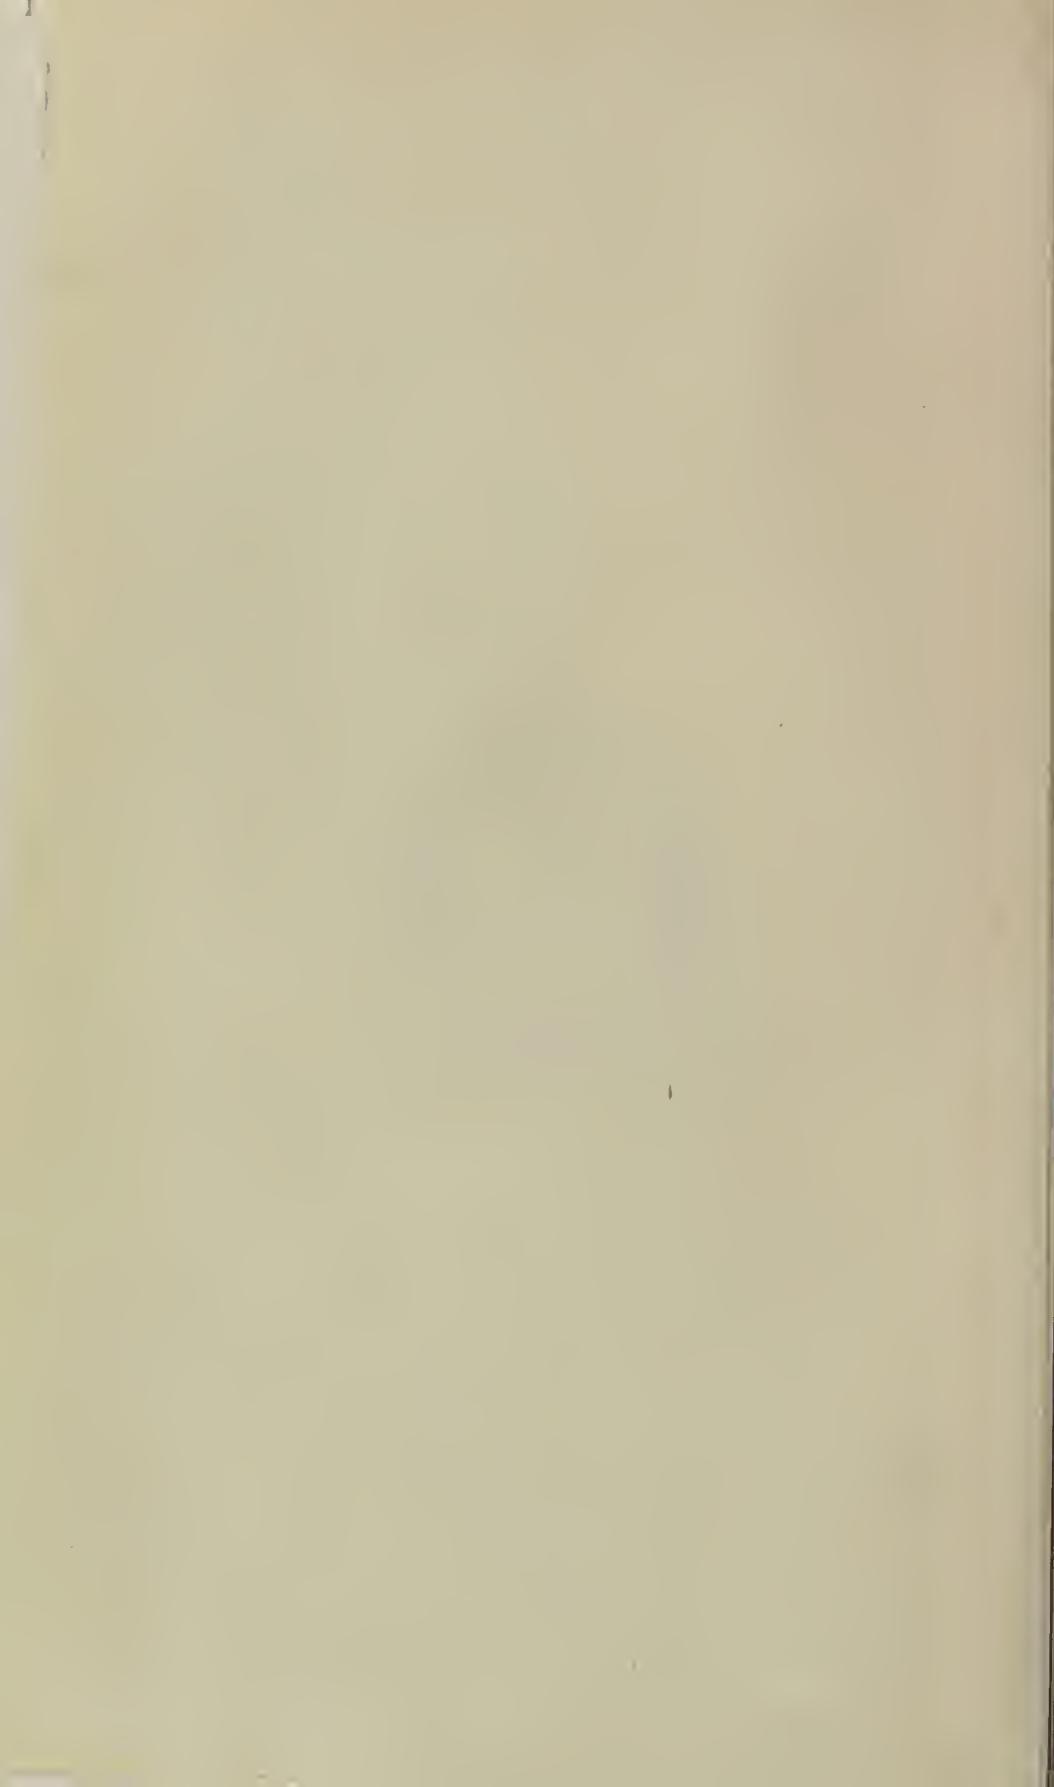

I give and bequeath unto A.B. (or unto my said executors or my said trustees as the case may be) the sum of upon Trust to pay out of my Personal Estate to the Treasurer for the time being of "The New South Wales Institution for the Deaf and Dumb and the Blind" (incorporated), City Road (late Newtown Road), Darlington, such sum as a donation to the said Institution.

The following is the proper attestation to a Will:-

Signed by the above-named testator as and for his last Will in our presence who in his presence at his request and in the presence of each other have subscribed our names as Witnesses.

Signatures and Addresses.

PREVENTION OF BLINDNESS.

It has been estimated that 40 per cent. of blindness is due to the disease Ophthalmia Neonatorum, or Infantile Ophthalmia. In other words, it is probable that four out of every ten blind people have lost their sight from this cause.

Ophthalmia Neonatorum is a disease which attacks the eyes of newly-born children, their eyes being infected by the mother during the birth. It is very dangerous and infectious, and unless prompt measures are taken on its appearance, it almost inevitably results in blindness. Sometimes the disease yields to treatment, but in this disease perhaps more than in any other is prevention better than cure.

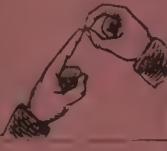

The attention of parents, midwives and others is called to the following instructions, which, if invariably carried out, would do much towards minimising the amount of blindness in the world, and preserving the inestimable blessing of sight to children whose eyes are attacked by the dread disease Ophthalmia Neonatorum.

1. When a child is born, see that the eyes are carefully and thoroughly washed out. In lying-in institutions and in other cases where there is danger of infection, the midwives should be instructed to instil a drop of one per cent. silver nitrate solution or twenty-five per cent Argyrol solution into the baby's eyes.
2. Especially in the first week or two of the child's life, carefully examine the eyes for signs of inflammation (redness of the eyes or lids, discharge, or swelling).
3. If there is any suggestion of Inflammation, **SEND FOR THE DOCTOR**. Do not wait to see if the condition of the eye becomes worse—remember that the sight of the child may be imperilled.
4. Previous to the doctor's arrival, wash the child's eyes in clean warm solution of Boracic Acid every quarter of an hour; using clean cotton wool, and being careful not to use the same piece of cotton wool twice, and being also careful not to touch both eyes with one piece.
5. **OBEY THE DOCTOR'S INSTRUCTIONS IMPLICITLY.** Remember that once the child's sight is destroyed, it can never be regained; and remember, too, that carelessness or failure to properly carry out the doctor's instructions may doom the child to lifelong darkness.

The question of the prevention of blindness from Ophthalmia Neonatorum is a big medical, social and political problem. Other phases of the subject may be referred to at a later date.
